

How to reach us:

Airport:

Miramare di Rimini - Forlì - Bologna

Motorway:

A14 Rimini Sud

By rail:

Bologna-Rimini (100 Km)

Once upon a time, in the year 21 A.D. the roman emperor Tiberius finished the bridge begun seven years earlier by his predecessor Augustus. This bridge, a masterpiece of roman art, is even today a testimony of Rimini, city of art and culture. After two thousand years, Tiberius International was born to promote and spread Italian Culture throughout the world.

Learning a foreign language, in this case Italian, means above all, coming into contact with a new cultural-social reality. Our courses offer this kind of direct contact, not only with history, with

culture and with the every day life of our country, but will involve the students in the atmosphere and colour of the life of the town itself.

Italian is the language of great literary, historical and cultural traditions, it is also the language of gestural expression, of love, of spontaneity and friendship.

Rimini, for its part, will be ready to welcome you with all the efficiency of a tourist centre, which offers countless opportunities to organize your spare time. At your disposition will be, not only sunny beaches and an exciting nightlife, but also a city rich in culture and full of fascination. The proverbial warmth of the people of Romagna will make you feel completely at home.

TIBERIUS INTERNATIONAL is waiting for you!

* **At extra cost. A minimum number of participants is required.**

METHODOLOGY AND LEVELS

The curriculum of Tiberius International, which has an established educational experience abroad, follows you during your linguistic journey with the help of its modern approach to teaching languages. Tailored to the personality of each student, determined through active communication with the Staff, an individual curriculum will be devised taking into account each individual's comprehension level and interest in autonomous study. Every lesson will be conducted by two instructors, alternating in the instruction of various subjects such as vocabulary, pronunciation, conversation and grammatical structure. The curriculum is subdivided into seven levels of study (from a basic course for absolute beginners to professional and technical levels). The first day the students take a written and oral classification exam to determine the appropriate initial level of instruction. At the end of the course every student receives a "TIBERIUS CERTIFICATE" and/or an "ATTENDANCE CERTIFICATE".
